

## Renovated

### Rancho Valencia Resort & Spa

The only Relais & Chateaux property in southern California completed a \$30 million transformation in October. There's a Mediterranean-inspired ambience among the 49 casitas situated on 45 lush acres in the upscale San Diego County community of Rancho Santa Fe. The guest suites average 1,000 sq. ft. in size and offer rustic furnishings, high-beam roofs, walk-in closets, spacious bathrooms with soaking tubs, fireplaces and private patios. Health and wellness were major focuses of the renovations: The resort's fitness center added the 1,000-square-foot Serenity Yoga Pavilion, which will host classes, exercise programs and retreats led by top-tier fitness and wellness professionals; all 18 tennis courts were also resurfaced; and the expanded Spa at Rancho Valencia now offers a list of services featuring Amala products, exclusively available in southern California at Rancho Valencia. New and improved event spaces include a 16-person state-of-the-art boardroom, 1,900-square-foot ballroom and 7,600-square-foot croquet lawn featuring panoramic southern California views.
